

## Conference Programme

With a view to refining the text of the Call 2017, the programme of the conference features a combination of plenary and facilitated break-out sessions, high-level keynote talks by internationally renowned specialists, and poster presentations. Two half days are dedicated to each topics:

\* 21st of June afternoon and 22nd of June morning: *Object recognition and manipulation by robots: data sharing and experiment reproducibility* (ORMR)

\* 22nd of June afternoon and 23rd of June morning: *Industrial big data and process modelling for smart factories* (IBDSF)

The conference comprises a specific information session for applicants to the Call 2017.

The abstracts of the keynote talks and posters will be available as soon as possible.

In the evening of the 21st and 22nd of June, all attendees are invited to join the conference Networking Dinners.

\* Wednesday 21st of June dinner: [Kawaleria Restaurant](#) [1] - Golebia 4, Kraków

\* Thursday 22nd of June dinner: [Pod Roza restaurant](#) [2] - Florianska 14, Kraków
